

HOW THE HORDE MASS LAUNCH WORKS

The last event you can fly on Saturday is our HORDE MASS LAUNCH. You will qualify to enter the HORDE only if you DO NOT place in any other event.

Here is how the HORDE MASS LAUNCH works. First, you may only fly a SCALE AIRPLANE that you entered in another WESTFAC Event i.e. a judged event or a mass launch event that required at least 45 points to qualify. You must use the "sign-up" sheet at the scoring tent to sign up for the HORDE on Saturday. Please check the time for that sign-up at the field **on Saturday morning. The Contest Director will call a Mechanics and Pilots meeting 15 minutes prior to launch to explain the event and check your entry for the 45 point rule again.**

There will ONLY BE ONE LAUNCH. The winner will receive a trophy and a " K " . There will be trophies for 1st, 2nd and third.

This is meant to be a much fun event and it gives all the flyers that did not place a real chance to have some fun and win a trophy.

-WESTFAC Committee
